

**SALT LAKE HERALD.**  
SALT LAKE CITY, UTAH.  
BY THE HERALD PUBLISHING CO.  
Yesterday's Temperature.  
6 p.m. -68  
Noon -64  
8 a.m. -68  
-20  
Highest temperature for the last twenty-four hours, 74 degrees below zero. 41 degrees below zero by United States observer.  
Forecast for the Herald.  
SALT LAKE CITY, March 29, 1895.  
For thirty-six hours ending 6 p.m. Thursday, March 30: Fair weather today and Thursday; stationary temperature.  
Geo. N. Salsbery,  
U. S. Weather Bureau.

**FAIR**  
Changes for advertisements in THE SUNDAY HERALD must be handed in not later than Friday night.

**BRIEF AND BREEZY.**  
A MERCHANTS' agency reports nine new business firms in this city yesterday.

On account of the lecture this evening the telegraph there will be no chair practice.

William Richardson will be tried in the police court today on the charge of embezzlement.

The funeral of the late George Williams will take place from Collins' undertaking parlors, on Friday at 10 a.m.

It is thought that if nothing unforeseen occurs, work will be commenced on the new gravity sewer outlet by May 1.

A. G. HORN, the well known young attorney with Evans & Rogers at Ogden, has been admitted to practice in the supreme court.

A GRAND jury will be given at Turner hall next Saturday evening, under the auspices of the United States Marshal, for the benefit of the Eastern miners' union.

COURT CLERK MEYER issued marriage licenses yesterday to the following persons: Alexander Fickler and Mary E. Skidmore; Alonzo B. Covington and Russia E. Chingston all of Salt Lake.

MISS BLANCH B. COX, a Salvation army captain, will speak at the tabernacle this evening on the aims and objects of that organization, and also give an account of what has been accomplished by it in the rescue work among the slums of London.

TEMPERATURE: A report of yesterday's temperature is as follows: 8 a.m.—Salt Lake, 65; Baker City, 41; Cheyenne, 40; Helena, 41; Miles City, 40; Winnemucca, 34; Idaho Falls, 34; P. M.—Salt Lake, 50; Ogden, 39; Logan, 30; Park City, 30; Provo, 30; St. George, 30; Brigham, 37.

ATLANTA, March 19, 19 M. Main.  
New coal office in Godde, Plattsburg store.

PERSONS from the country visiting Salt Lake city, or intending to visit Salt Lake at conference time, may engage apartments in the Columbia hotel and in the Columbia hotel, by writing to G. F. Culmer & Bros. at Ogden, giving dates and number of rooms required.

81,000,000  
To lend on improved real estate. James H. Bacon, at American National bank.

# ENOCH DAVIS MUST DIE.

The Supreme Court Refuses to Grant a New Trial.

HE WILL BE EXECUTED.

The Date of Execution to Be Fixed By Judge Blackburn.

Dan Harrington and the Box of Convicts—A Colorado Man Under Arrest for Robbing a White House Guest—Another Bogus Check.

In the supreme court yesterday Judge Barrick handed down his maiden opinion in the case of the People vs. Enoch Davis, appellant, appeal from the First district court. The defendant and appellant in this case was convicted of murder in the first degree for the killing of his wife at Ashley and sentenced to be shot. The appeal was taken upon the ground that the indictment returned against Davis did not charge murder in the first degree, and hence the jury was stepped from returning such a verdict.

In a very lengthy opinion, Judge Barrick held that the indictment was sufficient to warrant the verdict of the jury and hence affirmed the judgment of the lower court, and remanded the case for further proceedings, in accordance with law, Judge Zane concurred and Miller dissented.

This means of course that Davis will suffer the death penalty by shooting as soon as a reasonable time has elapsed. His crime, according to the testimony of the prosecution, was one of the most cold-blooded and brutal on record. It being proved by the strongest circumstantial evidence that he clubbed his wife to death with a revolver and then threw her body into a potato hole on the premises, where it remained until the horrible crime was discovered.

His case now goes back to Judge Blackburn's court, and the date of execution will again be fixed.

**DON'T KNOW IT WAS LOADED.**  
Dan Harrington Says He Never Intended to Release Two Convicts.

It will be remembered that in June last two prisoners escaped from the penitentiary through being carried outside the walls in a box containing doors. One of the convicts who carried the box was Daniel Harrington, and for the offense he had forty days added to his time. Harrington yesterday wrote to Governor Thomas, stating that he did not know there was a convict in the box when he carried it out, and asking that he be released from the additional time imposed.

**THE POLICE HARVEST.**  
A White House Robbery—Lizzie Lynch Acquitted.

Joe Wilson, a knight of the green cloth, failed to appear in the police court yesterday to answer to the charge of gambling, and forfeited \$50.

The charge of stealing a watch belonging to John Jones, in which Carrie Simpson, a notorious colored woman, was arrested on Tuesday night, failed to "stick," but she was sent up for fifteen days for using abusive language.

Clara Wells, a freedoed damsel with a shady reputation, was fined \$25 for creating a disturbance at the house of ill fame known as the "Three Deuces."

**A WHITE HOUSE ROBBERY.**  
C. J. Bailey, a young man who recently came to Salt Lake from Colorado, entered a plea of not guilty to the charge of petit larceny, and the trial was set for this afternoon. Bailey has been stopping at the White house and is alleged to have at an early hour yesterday morning he entered another room at that hostelry occupied by Mr. Castle, a business man of Chicago, and stole \$48 from a valise. Bailey claims that he was drunk at the time and says he has no recollection of the affair.

Still After the Thief.  
The police are still looking for the mysterious individual who made an unsuccessful attempt to steal a lot of grain from the Salt Lake Mill and Elevator on Tuesday night, and although the man has not yet been nabbed, they are drawing the lines pretty closely. The team which the thief used did not belong to him, and the owner has been found.

**LIZZIE LYNCH ACQUITTED.**  
Lizzie Lynch, the proprietress of the Rapid Transit, looking house on State street, was tried on the charge of prostitution, Julius Gauer, George E. Vanden, Joseph House, J. B. Blazer, C. S. Groves, and F. A. Virtue being sworn as jurors. They found the defendant not guilty.

Another Bogus Check.  
W. F. Clinton, who says he is a telegraph operator, was arrested by officers Sheets and Cutler yesterday on the charge of obtaining money under false pretenses. It seems that Clinton induced Mr. Shields, of the Gaiety saloon, to cash a bogus check for \$10.

**VAGS IN THE TOWNS.**  
The police last night rounded up a crowd of vagrants, who gave their names as follows: William Johnson, Dave Harris, George Williams, Frank Pitts, Henry Morton, Con. Gorman and William Williams. They will have a hearing in the police court today.

**CHARGED WITH STENING FISHES.**  
A boy named Alex Scott was taken in by Officer Leavitt yesterday afternoon on the charge of stealing six dozen flasks from a Second South street saloon.

**A BREWERY BOYCOTT.**  
The Union Opens Up the Fight with a Circular Letter.

At the meeting of the Federated Trades on Friday night it was stated that the Fischer Brewing company had failed to comply with a request that "weak" employees be discharged, and a resolution to the effect that the patronage of union men should be withdrawn from the brewery was adopted. This polite statement was really the declaration of a boycott against the brewery, and since then the Brewers' and Malsters' union has sent out the following circular letter:

SALT LAKE CITY, Utah, March, 1895.  
To Organized Labor and its Friends.  
Gentlemen—This is to notify you that the Albert Fischer Brewing company of Salt Lake is a non-union brewery for the following reasons: That according to written contract made with the Breweries of Salt Lake by Brewers' and Malsters' union No. 81, it was stipulated that said breweries should employ none but union men. The Albert Fischer Brewing company having broken this contract by refusing to discharge a non-union man, and otherwise treating with contempt the requests of the union, was for that reason declared a non-union brewery by the Brewers' and Malsters' union No. 81 of Salt Lake city and their action has been endorsed by the Utah Federated Trades and Labor council.

Now, therefore, we call upon all union men and the friends of labor, to patronize the Salt Lake City Brewing company's saliently "weak" brewery beer, as they are the only union brewery in Salt Lake city. Fraternal greetings, Brewers' and Malsters' union, No. 81, Salt Lake City, Utah, Secretary.

The Plumbers union held a meeting last night and adopted resolutions in sympathy with the union brewers, and afterwards some of the plumbers dropped into the saloon kept by Colonel Kelly, on State street. They ordered beer, and the amber liquor from Fischer's brewery was before them. Mr. Kelly admitted that the beer was from Fischer's, and after being informed of the action just taken by the plumbers, pitched the key into the street and the white wings of peace soon fluttered over the saloon. It is said that the unions will push this fight vigorously, and as Mr. Fischer shows no signs of weakening, it is evident that there is a pretty fight ahead.

**REMINISCENT CHAT.**  
Philosophical and Ruminative Remarks by Mr. Babcock.

Railroading in the Good Old Times—Some Characteristics of Gould and the Vanderbilt.

There are few men who stick closer to their desks than Stephen H. Babcock, the general freight agent of the Rio Grande Western. The reporter who catches him on guard may consider he has made a lucky catch, as these spells do not occur more than once in an ordinary life time, though it may happen several times in the life time of a railroad man, who is said to have as many changes of hands as a corn.

SEVERAL CONTRACTS LET.

The Harmon Building Blocks any Commercial Street Extension.

Contract Let for the Sanitarium Pipe Line—The Brighton Normal—The Market House to Be Completed by June 15.

Last year there was considerable agitation favoring the dividing of the large business blocks, but this has all blown over and the city is building up on the old lines.

There was a time—and it is not more than two years ago—when Commercial street promised to become one of the great business thoroughfares of the city, and there was a general demand for frontage at a good stiff price. This street, between Main and State streets, commands a very favorable location and should it be extended south it would, no doubt, become all that its projectors predicted.

But all hopes of such an extension are now being blocked by the erection of a business block on the ground belonging to the Harmon estate, which stands directly in the way. Should the city council ever conclude to open up a street through this block, it will be compelled to expend a \$30,000 building a force of teams and men are already at work excavating for the foundation and cellar.

The contract for the new structure has been let to H. E. Redfield, and he is bound to complete the edifice by October 1. The front of the first story is to be of cut stone and the second and third stories will be of pressed brick with dressed stone sashings.

The building has a frontage of 108 1/2 feet on Second South street with a depth of 60 feet. Thompson & Weigel are the architects and they have provided a large and elegant entrance, with the floor. All the office rooms will have outside light. About \$4,000 will be expended on iron sashings.

The contract for building a store room on the C. E. Taylor lot, just west of the McCormick block on First South street, was yesterday awarded to the Salt Lake Building & Manufacturing company, the price estimated being \$3,800. The room is to have a frontage of 35 feet with a depth of 55 feet, and an 18-foot ceiling. The front will be made of stone and brick. Thompson & Weigel are the architects.

The same architects have the plans out for a residence for N. J. Sheekel, a Nebraska man, to be erected on Sixth South street, between Fifth and Sixth East, to cost about \$2,000.

Architects are now at work on the plans for two cottages which J. A. Norton has ordered to be built on the corner of Second South street and the Washington street, this side of the Utah Central depot.

Councilman Lawson and Jim Kennelly, who own a valuable piece of property on Second South street, near the Washington street, are said to be considering a proposition to erect thereon a fine new modern business block.

**THE BACON SANITARIUM.**  
The Pipe Line Contract Let and the Work Will Be Pushed.

The contract for building the pipe line for the Bacon sanitarium from the Bamberger Springs to the McKinnis block was let yesterday to a Detroit firm, the contracting party guaranteeing to keep the line in repair for ten years. The time named for completing the line is June 1.

The work of constructing the big swimming tank and private plant will be next in order and early in June Salt Lake city will be able to add to its list of attractions, a first class sanitarium.

While a great many people are still stark still, their hands in their pockets, "the world do move."

**THE BRIGHTON NORMAL.**  
Contract to Be Let for the Construction of the North Wing.

Brighton aspires to become the great intellectual and moral center of Salt Lake valley—the hub of this part of the universe, so to speak.

When Ed Senior laid out Brighton his first thought was a church and a school house, and the latter soon became famous.

This lead Brighton proposes to follow up with a normal school and conservatory of music, and a building over three hundred feet long has been planned. The foundation for the north wing is in, and Messrs. Thompson & Weigel are now engaged in completing the plans and specifications preparatory to letting the contract for its construction.

The directors of the institution are Messrs. Wolff, Newburn and Dr. Handbrook. The college is richly endowed with land and the enterprising promoters of this educational institution are said to be beating with great success in disposing of the land that was donated to the company.

**Continental Market Contract.**  
The contract for the erection of the Continental market house was yesterday awarded to Elias Morris, the amount being over \$40,000. The building will cost altogether nearly \$50,000, and will be ready for occupancy by June 15. Manager Jennings has already received a number of contracts, and the work will move on with a rapidity.

**Mr. Spencer's Barber.**  
S. P. Spencer, the real estate broker, is an all-around trader and will do for anything from a jack rabbit to a San Juan deer. His last barter was a block of 100 head of sheep. They are contracted to be delivered at the head of Provo canyon June 15, after shearing. The price per head was \$2.25, for all under 5-year-old.

**The Main Street Poles.**  
The Telephone company and the Western Union Telegraph company will consolidate in stringing their wires on Main street. A new line of poles, seventy-five feet high, will be erected, and the work will commence next week. A. G. Jennings.
